

T-5

SIGN:

Warning to Boaters... Attention Flashing Lights Tones and Voice Messages Signal a Rapid Rise in Water Level

COMMENT:

Good use of placement, color, and identification of other safety measures (strobe, tones, and voice) in place. Lighting adds to effectiveness.

RECOMMENDATION:

For large signs, If there is only warning information without interpretive or other site information, public attention to sign may be limited. Limit warning text to necessary information only or break up with non-warning content.

T-6

SIGN:

Danger Keep Away

COMMENT:

Placement in tailrace area effective. Font size designed to notify of danger before exposure.

RECOMMENDATION:

None.
